By using the Wallet, you represent and warrant that you meet all eligibility requirements outlined in these Terms. However, we reserve the right to refuse access to or use of the Wallet to certain individuals and to change our eligibility criteria at any time.

Services

The Wallet is non-custodial software for managing digital assets such as cryptocurrencies and virtual commodities, specifically on the Solana blockchain ("Digital Assets"). This means you are solely in control of and responsible for your Digital Assets and private keys, and accordingly, you can authorize transactions from your wallet address. You expressly acknowledge and agree that as the Wallet is non-custodial software, you are solely responsible for your activity and any risk of loss at all times.

The Wallet allows you to:

- Generate wallet addresses and associated private keys that you may use to send and receive Digital Assets;
- Store locally on your own wallets tokens, cryptocurrencies, and other crypto or blockchain-based Digital Assets;
- View Digital Asset price information made available by third-party service providers;
- View addresses and information that are part of digital asset networks (including Solana, Arbitrum, and Optimism) and broadcast transactions;
- Utilize additional services provided by our partners;
- Access additional functionality that Go Defi may periodically add to the App;

The Wallet also includes any additional functionality that may be added to the App from time to time.

Wallet Address, Private Key, and Backup Capabilities

An encrypted backup of certain information associated with your Wallet can be stored on eligible devices. The private key is associated with the wallet address, and together they can be used to authorize the transfer of Digital Assets to and from that wallet address. You are solely responsible for the retention and security of your private key and any mnemonic phrase ("**Secret Phrase**") associated with your wallet. You must keep your wallet address, Secret Phrase, and private key access information secure. It is crucial that you backup your private keys, backup phrases, or passwords. Failure to do so may result in the loss of control of Digital Assets associated with your wallet.

You acknowledge and agree that we do not receive or store your wallet password, encrypted private key, unencrypted private key, or Secret Phrase associated with your wallet. We cannot generate a new password for your wallet if you fail to remember your original password. If you have not safely stored a backup of any wallet address and private key pairs maintained in your wallet, you accept and acknowledge that any Digital Assets you have associated with such wallet address will become inaccessible. Accordingly, we shall have no responsibility or liability whatsoever in the event you are unable to access your wallet for any reason, including without

limitation your failure to keep your wallet address, Secret Phrase, and private key information secure.

Withdrawals and deposits

You can deposit cryptocurrency into your Wallet and withdraw cryptocurrency from your Wallet. The Cryptocurrencies may be deposited from another Cryptocurrency wallet held by the User and also from a Cryptocurrency wallet not held by the user. You can withdraw cryptocurrencies to another cryptocurrency wallet owned by the User, as well as to a cryptocurrency wallet that does not belong to the user. When withdrawing funds, the User is responsible for ensuring that the entered wallet address is correct and valid, otherwise the funds may be lost forever. When withdrawing funds, the user's wallet must have enough funds to process transactions, including any applicable fees. GoD Corp is not responsible for and will not reimburse the User for any loss or damage if the User has provided an incorrect wallet address.

Wallet Registration and Security

To use the Wallet, you must either import or create a wallet. When you create a Wallet, you will be assigned a private key. You agree to immediately notify us of any unauthorized use of your private key or any other breach of security related to your Wallet. Notwithstanding the foregoing, you acknowledge and agree that you shall assume all risks related to the use of the Services and that you are solely responsible for maintaining the confidentiality and security of your private key.

When creating a Wallet, you are strongly advised to take precautions to avoid the loss of access to and/or control over your Wallet. Suggested measures include, but are not limited to:

- (a) Creating a strong, unique password that you do not use for any other purpose (e.g., different from your phone password or any other passwords you use for websites, online services, etc.) and leveraging biometric authentication if available;
- (b) Not storing the private key and Secret Phrase in plain text online or in an unsecured physical location;
- (c) Limiting access to your Wallet;
- (d) Taking all necessary precautions against malware on your devices and networks; and
- (e) Promptly notifying us if you discover or suspect any security breaches related to your Wallet.

Notwithstanding anything to the contrary herein, we shall have no liability whatsoever in connection with activities that occur on your Wallet, with or without your authorization.

Transaction Fees

There may be transaction fees (e.g., mining fees) associated with your virtual currency transactions that are required by the virtual currency system or blockchain network you engage with. You must ensure that you have an adequate balance in your Wallet and/or sufficient "gas" to complete transactions before initiating them. You acknowledge and agree that we will not be liable for any failed transactions or losses incurred due to incorrectly set transaction fees (i.e., too low or too high) or due to insufficient funds or gas associated with your Wallet address. You further acknowledge and agree that we do not have access to your or anyone else's transactions.

Taxes

It is your responsibility to determine what, if any, taxes apply to the transactions that you have submitted transaction details for via the Services, and it is your responsibility to report and remit the correct tax to the appropriate tax authority. You agree that we are not responsible for determining whether taxes apply to your transactions or for collecting, reporting, withholding, or remitting any taxes arising from any Digital Asset-related transactions.

Third Party Services and Content

In no event shall a description or reference to a Third Party Services or product (including, but not limited to, providing a description or reference via hyperlink) be construed as an endorsement or promotion of such Third Party Services or products by us. We retain the exclusive right to add to, modify, or cancel the availability of any Third Party Service. You may agree to receive push notifications from Third Party Services providers. In order to receive push notifications, you must opt in to the service. Push notifications will not be automatically enabled on your device for Third Party Services. We do not control, endorse, or adopt any Third Party Services shared through push notifications, and will have no responsibility for Third Party Services including, but not limited to, token availability and/or sales. If, to the extent permitted by Wallet, you grant express permission to a third party to access or connect to your Wallet account, either through the third party's product or service or through Wallet, you acknowledge that granting permission to a third party to take specific actions on your behalf does not relieve you of any of your responsibilities under these Terms. You are fully responsible for all acts or omissions of any third party with access to your wallet.

GoD Corp or our partners are exclusively entitled to decide on functionality, the use, subject matter and the range of the Services as well as to cease rendering the Services. GoD Corp is exclusively authorized to decide on the contents and the nature of the Services as well as to freely add, change, or remove particular elements. The use of any new Services, after the User has accepted these Terms shall be subject to its provisions.

Risks and Recommendations

You acknowledge that you are fully aware of all applicable laws and technical constraints relating to the blockchains, and to the Services. You acknowledge that you have been warned of the following associated risks and advised of the following recommendations:

Regulatory Changes: Blockchain technologies and related services are subject to continuous regulatory changes and scrutiny worldwide, including but not limited to anti-money laundering and financial regulations. You acknowledge that certain Services, including their availability, could be impacted by one or more regulatory requirements.

Tax: Transactions or operations involving Crypto Assets, such as exchanges, airdrops, forks, and gains from staking, may be considered taxable events according to the legislation under which you are subject to taxation. These rules may be unclear or subject to change. You are encouraged to consult your own tax or accounting adviser before engaging in Crypto Assets activities.

Technology: Users understand that some of the technology supported or made available through the Services is new, untested, and not provided by GoD Corp and, therefore, outside of GoD Corp's control. Advances in cryptography or other technical advances, such as the development of quantum computers, could present risks to blockchain networks, potentially resulting in the theft or loss of Crypto Assets. Other adverse changes in market forces or technology may prevent or compromise GoD Corp's performance under these Terms.

Cybersecurity: Hackers or other groups may attempt to interfere with GoD Corp's products and information systems through various means, including but not limited to denial of service attacks, side-channel attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.

Underlying Blockchain Protocols: All transactions created through the Services are confirmed and recorded on blockchain networks. These networks are decentralized peer-to-peer networks run by independent third parties, which GoD Corp does not own, control, or operate. We have no control over blockchain networks and cannot ensure that transactions you broadcast through

the Services will be confirmed and processed. You acknowledge that we do not store, send, or receive Crypto Assets on your behalf and agree that transactions configured through the Services may fail or be substantially delayed by the underlying blockchain networks. Blockchain protocol changes, such as forks, may impact the characteristics of Crypto Assets, including their availability, name, security, value, or operations. In such events, GoD Corp may suspend support for the affected Crypto Asset as necessary, and will endeavor to provide advance notice when possible. You should stay informed about such events and take necessary precautions.

No Retrieval of Private Keys: GoD Corp operates non-custodial services, meaning we do not store or have access to your Crypto Assets or Private Keys. We do not store passwords, Recovery Phrases, Private Keys, passphrases, transaction history, PINs, or other credentials associated with your use of the Services. Unless you subscribe to a third-party recovery service, no one can help you retrieve wallet access. You are solely responsible for remembering, storing, and securing your credentials. Any third party with access to your Recovery Phrase or PIN can control the Private Keys associated with your Wallet and steal your Crypto Assets without any possibility of retrieval.

Keep Your Credentials Safe: When setting up your Wallet, you must: (a) Create and remember a strong PIN that you do not use for any other service; (b) Protect and keep your Recovery Phrase secure and confidential; (c) Protect access to your Wallet.

Learn More About Crypto and the Risks Involved: Before using Wallet, it is important to understand how to use your Crypto Assets and the risks involved.

No Liability: There may be additional risks not foreseen or identified in these Terms. You are strongly encouraged to assess whether your financial situation and risk tolerance are compatible with the use of the Services. For the avoidance of doubt, and notwithstanding the Limitation of Liability under these Terms, you agree that GoD Corp shall have no liability for any loss incurred due to the risks highlighted in this section or your failure to follow the recommendations herein.
